[Portfolio](#) | [LinkedIn](#) | [Github](#)

Hello! I'm Rebecca – a marketer turned software engineer with a passion for problem solving, clean code, and modern design.

---

### Skills

---

HTML5, CSS3, Python, JavaScript, Bootstrap, JQuery, Node.js, Express.js, ReactJS, Redux, AWS, PostgreSQL, Git, Github, Adobe CC, Google Analytics

---

### Development Experience

---

#### Digital Crafts / Fullstack Software Engineer

February 2019 - June 2019, ATLANTA, GA

DigitalCrafts is a top-rated coding bootcamp teaching the fundamentals of programming through an intensive classroom experience, transforming beginners into full-stack software engineers with cutting-edge skill sets.

### Projects

#### Movie.io / [Github](#) | [Live Site](#)

Using a movie database API, we created Movie.io using HTML, CSS, Bootstrap, and JavaScript.

#### Do The Thing! / [Github](#) | [Live Site](#)

Ticketing management system built with Express.js, Node.js, and PostgreSQL. I led the design effort using CSS and Bootstrap. After logging in, you are able to see all tickets submitted, assign them to your profile, or view all pending and completed tickets for all users.

---

### Work Experience & Education

---

#### Everywhere Agency / Community Manager

MARCH 2018 - FEBRUARY 2019, ATLANTA, GA

Social media content creator and influencer network manager.

#### Cumulus Media / Presentation Designer

SEPTEMBER 2016 - MARCH 2018, ATLANTA, GA

Sales and digital assistant. Designed pitch decks, edited videos, and helped with social media content creation.

#### University of West Georgia / Mass Communications, B.S.

AUGUST 2012 - APRIL 2016, ATLANTA, GA

Film and media concentration. 4.0 GPA.
